

## Basic Health Screening Program

**A program that provides the basic health screening to prevent and diagnose chronic diseases**

- Questionnaires and counseling : medical consultation, health risk factor assessment
- Physical measurements : height, weight, pulse, blood pressure, abdominal circumference
- Body composition analysis : body fat, muscle mass, and obesity
- Blood tests : complete blood cell, blood type, hepatitis A, B, C, liver function, kidney function, uric acid, blood lipid, blood sugar(HbA1c, Glucose), inflammation(ESR), thyroid hormones, infection(syphilis, HIV)
- Tumor markers : liver cancer, colon cancer, pancreatic cancer, prostate cancer(men), ovarian cancer(women)
- Urinalysis : proteinuria, glucose, hematuria, urinary tract infection
- Stool tests : occult blood, parasites
- Eye exam : visual acuity, intraocular pressure
- Audiometry
- Pulmonary function tests
- Chest X-ray
- Electrocardiogram
- Esophagogastroduodenoscopy
- Upper abdominal ultrasound
- Dental examination
- Specialist's results consultation
- Female : mammogram, pap smear

\*Payment for additional tests, such as biopsy, is on your own.

**Bongseng**

Male 525,000 KRW  
Female 600,000 KRW

Not include sedation anesthesia

BONGSENG MEMORIAL HOSPITAL

## Lifecycle Program

**Climacteric Program**

Male 900,000 KRW  
Female 1,050,000 KRW

Not include sedation anesthesia

**A program for midlife and climacteric period**

- All items of Bongseng program is added
- Bone mineral density test
- Additional Blood Tests : vitamin D
- Male : male hormones, prostate ultrasound, low-dose chest CT
- Female : female hormones, breast ultrasound, trans-vaginal ultrasound, human papillomavirus

\*Payment of additional tests, such as biopsy, is on your own.

**Youth**

Male 375,000 KRW  
Female 450,000 KRW

**Programs for young people in their 20s, test takers, and international students**

- Questionnaires and counseling : medical consultation, health risk factor assessment
- Physical measurements : height, weight, pulse, blood pressure, abdominal circumference
- Body composition analysis : body fat, muscle mass, and obesity
- Blood tests : complete blood cell, blood type, hepatitis A, B, C, liver function, kidney function, uric acid, blood lipid, diabetes, inflammation, thyroid hormones, infection(syphilis, HIV)
- Urinalysis : proteinuria, glucose, hematuria, urinary tract infection
- Stool tests : occult blood, parasites
- Eye exam : visual acuity, intraocular pressure
- Audiometry : Electrocardiogram
- Chest X-ray : Upper abdominal ultrasound
- Dental examination : Varicella antibodies
- Allergy test(Multiple Allergen Simultaneous Test)
- Specialist's results consultation
- Female : anemia workup, rubella antibody, pap smear

BONGSENG MEMORIAL HOSPITAL

**Cancer precision Program**

Male 1,500,000 KRW  
Female 1,725,000 KRW

Not include sedation anesthesia

**A program consisting of scrutiny to detect cancer in major organs early**

- All items of Bongseng program is added
- Colonoscopy
- Low dose chest CT
- Abdominal CT(with contrast agent)
- Thyroid ultrasound
- Male : prostate ultrasound
- Female : breast ultrasound, trans-vaginal ultrasound, human papillomavirus

\* Payment for additional tests, such as biopsy, is on your own.

BONGSENG MEMORIAL HOSPITAL

## Vascular Disease Program

**Brain & Cerebrovascular disease Program**

Male 1,800,000 KRW  
Female 1,875,000 KRW

Not include sedation anesthesia

**A program that consists of a series of tests to detect brain diseases such as stroke, cerebral aneurysm, and brain tumors.**

- All items of Bongseng program is added
- Brain MRI & MRA
- Cerebral blood flow ultrasound
- Carotid ultrasound

\* Payment for additional tests, such as biopsy, is on your own.

**Heart & Cardiovascular disease Program**

Male 1,200,000 KRW  
Female 1,275,000 KRW

Not include sedation anesthesia

**A program of screenings for early detection of heart disease, including angina, myocardial infarction, and heart failure.**

- All items of Bongseng program is added
- Cardiac CT(with contrast agent)
- Echocardiogram

\* Payment for additional tests, such as biopsy, is on your own.

**VIP**

Male 3,000,000 KRW  
Female 3,150,000 KRW

Not include sedation anesthesia

**Tests to detect cancers of major organs at an early stage, as well as programs to precisely diagnose cardiovascular and cerebrovascular disease.**

\*A two-day examination without hospitalization

- All items of Bongseng program is added
- Brain tests : Brain MRI & MRA
- Cardiac tests : cardiac CT(with contrast agent), Echocardiogram
- Lung screening : low dose chest CT
- Digestive examination : colonoscopy
- Thyroid ultrasound
- Bone mineral density test, lumbar spine X-ray
- Arteriosclerotic stenosis test
- Additional blood tests : pancreatic disease, rheumatoid factor, vitamin D, inflammation, homocysteine
- Male : prostate ultrasound
- Female : trans-vaginal ultrasound, breast ultrasound

\*Payment for additional tests, such as biopsy, is on your own.

BONGSENG MEMORIAL HOSPITAL

## Premium Program

## Additional Examination

Program	Category	Cost (KRW)
Brain	Brain MRI & MRA	710,000
	Brain MRI	460,000
	Brain MRA	450,000
Heart	Cerebral blood flow ultrasound, Carotid ultrasound	250,000
	Cardiac CT (with contrast agent)	330,000
	Echocardiogram	170,000
Digestive organs	Abdominal CT (with contrast agent)	330,000
	Esophagogastroduodenoscopy	110,000
	Colonoscopy	160,000
	*Endoscopy sleep management fee (stomach, colon each)	60,000
Chest	Low dose chest CT	160,000
	Breast ultrasound	110,000
Female	Trans-vaginal ultrasound	80,000
	Trans-vaginal ultrasound, Human papillomavirus	140,000
	Trans-vaginal ultrasound, Breast ultrasound	180,000
Tyroid	Thyroid ultrasound	80,000
Osteoporosis	Bone mineral density test (lumbar spine, hip joint)	100,000
Allergy	Multiple Allergen Simultaneous Test	150,000

※The cost will be added 50% of each amount

Program	Category	Cost (KRW)
Blood Precision	NK cell activity test	70,000
	Totalantioxidantstatus(TAS) Totaloxidantstatus(TOS) test	60,000
Genetic Test (GenoPAC)	Common cancer type 3 I 3 types of male cancer II	Stomach, colon, and lung cancer 60,000
	6 types of male cancer	Liver, thyroid, and prostate cancer 60,000
	11 types of male cancer	Stomach, colon, lung, liver, thyroid, and prostate cancer 70,000
	3 types of female cancer I	6 types of male cancer + pancreatic, testicular, bladder, esophageal, and kidney cancers 100,000
	3 types of female cancer II	Stomach, colon, and breast cancer 60,000
	3 types of female cancer V	Endometrial, thyroid, and lung cancer 60,000
	7 types of female cancer	Thyroid, breast, and cervical cancer 60,000
	12 types of female cancer	Stomach, colon, breast, endometrial, thyroid, lung, and ovarian cancers 70,000
	3 types of diseases	7 types of female cancer + liver, pancreas, bladder, esophagus, and kidney cancer 100,000
	5 types of diseases I	Parkinson's disease, alzheimer's disease, and stroke 60,000
5 types of diseases II	Parkinson's disease, alzheimer's disease, stroke, cerebral aneurysm, and type 2 diabetes 70,000	
10 types of diseases	Osteoporosis, osteoarthritis, obesity, high blood pressure and migraines 70,000	
15 types of diseases	Parkinson's disease, alzheimer's disease, stroke, cerebral aneurysm, type 2 diabetes, osteoporosis, osteoarthritis, obesity, high blood pressure and migraines 100,000	
Men's all-around 26 types	10 types of diseases + chronic obstructive pulmonary disease, myocardial infarction, atrial fibrillation, asthma and depression 140,000	
Women's all-around 27 types	15 types of diseases + stomach, colon, lung, liver, thyroid, prostate, pancreatic, testicular, bladder, esophageal, and kidney cancers 200,000	
	15 types of diseases + stomach, colon, breast, cervical, thyroid, lung, ovarian, liver, pancreas, bladder, esophagus, and kidney cancer 200,000
